

15250 UV LED Light

Features:

1. 7 inline UV LED's with 2.5" X 5.5" curing coverage
2. ON/Off switch.
3. 12V - 24V input, fused cigarette lighter plug with 10' (300cm) cord.
4. 100V - 240V adapter with 42" (100cm) cord.
5. 40,000 plus $\mu\text{W}/\text{cm}^2$ @365nm used for UV adhesive curing.

Technical Parameters:

(A) LED Parameters

1. LED power: 8W high-power UV LED chip
2. LED Wavelength: 365nm
3. LED Output: 40,000 plus $\mu\text{W}/\text{cm}^2$
4. LED Lifespan: 20,000 hours

(B) Circuit Parameters

1. Input voltage range: 12V – 24V cigarette lighter plug. 100V – 240V plug adapter
2. Output: 12V/3A

(C) Physical Specifications

1. Size: Length, 7.625" (19.3cm). Width, 2.25" (5.7cm). Height 2.375" (6cm).
2. Weight: 1.3lbs (21oz) with cord and adapter.
3. Switch: On/Off
4. Material: anodized aluminum alloy body, ABS end caps.
5. Color: Black
6. 1.3lbs (21oz)
